## EDUCATION

**Ha Noi University of Science and Technology (HUST)** Ha Noi, Vietnam

BSc in Computer Science, School of Information and Communication Technology Expected Graduation: 2029

- CPA: 3.83/4.0
- Honors: Type A Academic Excellence Scholarship, Semester 2025.2; Outstanding Student of the 2025 - 2026 Academic Year.

**Ha Hoa High School** Phu Tho, Vietnam

Graduation Date: 2025

- Honors: Second Prize, Provincial Mathematics Olympiad (2025); Third Prize, Provincial Mathematics Olympiad (2024)

## EXPERIENCE & PROJECTS

**Foundation Models Lab (BK.AI)** Ha Noi, Vietnam

**Member, DreamAI Research Group** 9/2026 – Present

- Engaging in intensive self-directed training on **core Artificial Intelligence domains**, focusing on Machine Learning (ML), Deep Learning (DL), and Natural Language Processing (NLP).
- Studying advanced Stanford University coursework (including **CS229, CS230, CS224N**) to build a robust theoretical foundation and practical understanding of AI models and architectures.

**Sentiment Analysis API — MLOps Pipeline [GitHub]**

**Personal Project** 17/7/2026 – 6/9/2026

- Shipped a complete AI service end-to-end — from **model selection** (benchmarked 3 algorithms via ablation study, **F1 89.51% → 89.69%**) to a containerized FastAPI deployment that dynamically loads models from **Mlflow Registry**, avoiding hardcoded paths or manual redeployment when models change.
- Engineered the serving layer for production reliability: reused the exact training- time **preprocessing pipeline** at inference to prevent training-serving skew, isolated logging failures from prediction responses, and load-tested at **135 req/s** with **71ms p95** latency and zero failures.
- Orchestrated a **4-service** Docker Compose stack (model registry, database, API, one-time bootstrap job) with dependency-aware startup, enabling a **single-command**, reproducible deployment from a clean environment.

## LEADERSHIP & ACTIVITIES

**HUST Youth Union** Ha Noi, Vietnam

**Executive Member, Academic Committee** 10/2025 – Present

- Coordinated the "Digital Talent Development Program" (HUST x NIC), managing Coursera operations and tracking progress for nearly **300** students.
- Successfully guided participants to achieve Google AI Essentials and Google Prompting Essentials professional certificates.
- Supported the planning, logistics, and execution of various academic events and student initiatives organized by the Youth Union.

## SKILLS & INTERESTS

**Technical:** C/C++, Python, SQL, Git, AI Integration (Gemini API).

**Language:** English (Institutional TOEIC 875; IELTS Candidate), Japanese (Beginner).

**Research Interests:** AI, Machine Learning (ML), Data Science.
